

## RECARO P-1300 GT

A Global First – FIA Approved with Flexible Adaptor

The RECARO P-1300 GT is the innovation for professional motorsports professional racers have been waiting for. The combination of maximum safety and individualized comfort is what makes the new RECARO P-1300 GT the next evolution of racing shells. It is the first racing shell in the world to conform to the new FIA 8862-2009 standard for "Advanced Racing Seats" and deliver fore and aft adjustment. The shell and flexible adaptor, as a system, is FIA approved. Finally, cars driven in FIA sanctioned races can be equipped with a racing shell that slides fore and aft to accommodate multiple drivers. With its replaceable pads in three sizes and the flexible adaptor, the P-1300 GT delivers un-matched personalization options.
